

Annual General Meeting 2014

BHP Billiton Plc

23 October 2014

Disclaimer

Forward-looking statements

This presentation contains forward-looking statements, which may include statements regarding: trends in commodity prices and currency exchange rates; demand for commodities; plans, strategies and objectives of management; closure or divestment of certain operations or facilities (including associated costs); anticipated production or construction commencement dates; capital costs and scheduling; operating costs and shortages of materials and skilled employees; anticipated productive lives of projects, mines and facilities; provisions and contingent liabilities; tax and regulatory developments.

Forward-looking statements can be identified by the use of terminology such as 'intend', 'aim', 'project', 'anticipate', 'estimate', 'plan', 'believe', 'expect', 'may', 'should', 'will', 'continue', 'annualised' or similar words. These statements discuss future expectations concerning the results of operations or financial condition, or provide other forward-looking statements.

These forward-looking statements are not guarantees or predictions of future performance, and involve known and unknown risks, uncertainties and other factors, many of which are beyond our control, and which may cause actual results to differ materially from those expressed in the statements contained in this presentation. Readers are cautioned not to put undue reliance on forward-looking statements.

For example, our future revenues from our operations, projects or mines described in this presentation will be based, in part, upon the market price of the minerals, metals or petroleum produced, which may vary significantly from current levels. These variations, if materially adverse, may affect the timing or the feasibility of the development of a particular project, the expansion of certain facilities or mines, or the continuation of existing operations.

Other factors that may affect the actual construction or production commencement dates, costs or production output and anticipated lives of operations, mines or facilities include our ability to profitably produce and transport the minerals, petroleum and/or metals extracted to applicable markets; the impact of foreign currency exchange rates on the market prices of the minerals, petroleum or metals we produce; activities of government authorities in some of the countries where we are exploring or developing these projects, facilities or mines, including increases in taxes, changes in environmental and other regulations and political uncertainty; labour unrest; and other factors identified in the risk factors discussed in BHP Billiton's filings with the US Securities and Exchange Commission (the 'SEC') (including in Annual Reports on Form 20-F) which are available on the SEC's website at www.sec.gov.

Except as required by applicable regulations or by law, the Group does not undertake any obligation to publicly update or review any forward-looking statements, whether as a result of new information or future events.

Disclaimer (continued)

Non-IFRS financial information

BHP Billiton results are reported under International Financial Reporting Standards (IFRS) including Underlying EBIT and Underlying EBITDA which are used to measure segment performance. This presentation may also include certain non-IFRS measures including Underlying EBIT margin, Underlying EBITDA margin, Free cash flow, Net debt and Net operating assets. These measures are used internally by management to assess the performance of our business, make decisions on the allocation of our resources and assess operational management. Non-IFRS measures have not been subject to audit or review and should not be considered as an indication of or alternative to an IFRS measure of profitability, financial performance or liquidity.

UK GAAP financial information

Certain historical financial information for periods prior to FY2005 has been presented on the basis of UK GAAP, which is not comparable to IFRS or US GAAP. Readers are cautioned not to place undue reliance on UK GAAP information.

Basis of preparation

Unless specified otherwise, production volumes, sales volumes and capital and exploration expenditure from subsidiaries (which include Escondida, Jimblebar, BHP Billiton Mitsui Coal and our manganese operations) are reported on a 100 per cent basis; production volumes, sales volumes and capital and exploration expenditure from equity accounted investments (which include Antamina, Samarco and Cerrejón) and other operations are reported on a proportionate consolidation basis.

No offer of securities

Nothing in this presentation should be construed as either an offer to sell or a solicitation of an offer to buy or sell BHP Billiton securities or securities in the new company to be created by the proposed demerger in any jurisdiction.

Reliance on third-party information

The views expressed in this presentation contain information that has been derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information. This presentation should not be relied upon as a recommendation or forecast by BHP Billiton.

No financial or investment advice – South Africa

BHP Billiton does not provide any financial or investment 'advice', as that term is defined in the South African Financial Advisory and Intermediary Services Act 37 of 2002, and we strongly recommend that you seek professional advice.

Safety

Total Recordable Injury Frequency (TRIF)

(number of recordable injuries per million hours worked)

Our results at a glance

Attributable profit – excluding exceptional items (US\$ billion)

Note: Calculated on the basis of IFRS 10, IFRS 11 and IFRIC 20 for periods FY12 onwards.

Taxes and royalties paid¹ (US\$ billion)²

1. Taxes borne primarily comprises income tax and royalty-related taxes paid, production-based royalties accrued which approximate cash payments, royalties paid in-kind and certain other indirect taxes including customs and excise payments, payroll taxes paid and payments of Fringe Benefits Tax.
2. These numbers are as per those reported in the BHP Billiton Sustainability Reports (Taxes and royalty payments on a country-by-country basis table) under the EITI framework in the respective periods. The numbers have been reported in accordance with the applicable IFRS requirements at the time of publishing and as such may not be directly comparable year on year.

Full year dividends

Dividends¹

(US cents per share (cps))

1. Dividends declared in respect of the period.

Delivering strong financial results

- **Increased Group production¹** by 9%
- **Productivity gains** of US\$2.9 billion
- US\$6.6 billion of **sustainable productivity gains** over the past two years
- **Capital and exploration expenditure²** of US\$15.2 billion, down 32%
- **Free cash flow** increased by US\$8.1 billion
- **Underlying attributable profit** of US\$13.4 billion, up 10%
- **Total taxes and royalties** paid \$9.9 billion³
- **Underlying EBITDA** of US\$32.4 billion, up 7%
- **Net operating cash flow** of US\$25.4 billion, up 26%
- **Underlying return on capital** of 15%
- **Full-year dividend** up 4% to 121 US cents per share
- **Net debt** down to US\$25.8 billion

Attributable profit – excluding exceptional items
(US\$ billion)

Note: Variance relates to the relative performance of BHP Billiton during FY14 compared with FY13.

1. Refers to copper equivalent production based on average realised prices for FY13.

2. BHP Billiton share; excludes capitalised deferred stripping and non-controlling interests; includes BHP Billiton proportionate share of equity accounted investments.

3. Taxes borne primarily comprises income tax and royalty-related taxes paid, production-based royalties accrued which approximate cash payments, royalties paid in-kind and certain other indirect taxes including customs and excise payments, payroll taxes paid and payments of Fringe Benefits Tax.

Delivering sustainable value

Five Rivers Conservation Project
Australia

Supporting conservation

Broader economic contribution

1. Taxes borne primarily comprises income tax and royalty-related taxes paid, production-based royalties accrued which approximate cash payments, royalties paid in-kind and certain other indirect taxes including customs and excise payments, payroll taxes paid and payments of Fringe Benefits Tax.

Supporting our communities

Driving performance

Jimblebar
Australia

Our productivity journey

- Delivering a 16% increase in production over two years to the end of FY15
- Targeting another \$3.5 billion in annualised productivity gains by the end of FY17
- Reducing our capital expenditure by a third to \$15.2 billion in FY14
- Over the past decade returned \$64 billion to shareholders

Our commitment

- To maintain a strong balance sheet and solid A credit rating
- To continue to selectively invest in high return diversified investment opportunities through the cycle
- To extend our progressive base dividend policy
- To return excess capital to shareholders consistently, predictably, and in the most efficient way

bhpbilliton
